## Phone Overview

- + **Dimensions:** (H x W x D): 107.8 x 59.5 x 13.7mm
- + **Camera:** VGA
- + **Cable:** Micro USB
- + **Battery:** Lithium-Ion
- + **Rated Capacity:** 820 mAh
- + **Continuous Standby Duration:** (Relates to network status)
- + Please refer to their labels for other data related to the battery and the charger

# 1. Getting Started

## 1.1 Installing the SIM Card, SD Card and Battery

A SIM card carries useful information, including your mobile phone number, PIN (Personal Identification Number), PUK (PIN Unlocking Key), IMSI (International Mobile Subscriber Identity), network information, phonebook data, and short messaging data.

### **Installation**

- ◆ Hold the End Key and power off the mobile phone if the phone is powered on.
- ◆ Pull the back cover and remove it.
- ◆ Pull the battery outward and remove the battery.
- ◆ Insert the SIM card into the SIM card slot ensuring that the card is properly aligned and that the gold contact of the card is facing down.
- ◆ The SD card is a mobile storage card that the phone may utilize to store different files. Please insert the SD card into the SD card slot.
- ◆ Insert the battery with the gold contacts of the battery facing the metallic contacts in the battery slot and press the battery down until it locks into place.

### **Phone Lock Code**

The phone lock code is a security measure that may be set to prevent your mobile phone from unauthorized use. The initial phone lock code is set to 1122 and may be changed by the user. Once the lock code is set, it will need to be inputted when powering on the mobile phone.

### **PIN**

The PIN (Personal identification number 4 to 8 digits) code prevents your SIM card from unauthorized use.

Once a PIN lock is enabled, you will need to input the PIN any time the phone is powered on. The SIM card will lock if the PIN code is inputted incorrectly three consecutive times.

**To Unlock:**

- Input the correct PUK to unlock the SIM card.
- Input the new PIN and press the Selection key.
- Input the new PIN again to verify and then press the Selection key.
- If the input PUK is correct, the SIM card will be unlocked and the PIN will be reset.

**Note:** *The SIM card will be locked if you input wrong PIN code for three times. To unlock the SIM card, you need to input the PUK. The PUK code can be obtained from the network operator.*

## 2. Input Type

The mobile phone provides the following keys:

◆ **Dial key**

Press it to place a call by entering the called number or selecting a contact from the phonebook; or press it to receive an incoming call; or press it in standby state to show the latest call records

◆ **End key**

Press it to end a call being dialed or end an ongoing call; or press it to exit the menu and return to the standby state; or hold it for two or three seconds to power on or off the mobile phone.

◆ **Left and right soft key**

The bottom line on the screen displays the functions of the Left and Right soft key.

◆ **Direction key**

Press them to scroll the options when browsing a function list. In edit state, press direction keys to

navigate.

◆ **OK/Selection key**

Press it to confirm your selection.

◆ **Delete key**

Press it to delete a character before cursor.

◆ **Linefeed**

This key helps to switch to another line when the interface is in the edit interface.

◆ **Shift key**

Press this key to switch between input methods.

◆ **Space key**

Press it in the edit interface to get a blank.

◆ **Sym key**

Press it in the edit interface to input a symbol.

◆ **Alt key**

In edit interface, press it to input an alternative symbol or number.

◆ **Audio player key**

◆ **TV key**

Press key to access TV interface.

◆ **Number and letters**

Press number keys or letter keys to in input or edit state to input numbers or letters.

## 3. Menu Guide

### 1.2 Messaging

- ◆ **Write Message:** Through this feature you can create, read, or send a new message.
- ◆ **Inbox:** Received messages are listed in this location.
- ◆ **Drafts:** Drafts messages are listed in this location.
- ◆ **Outbox:** The messages which failed delivery or are temporarily stored in the Outbox.
- ◆ **Sent Messages:** Sent messages are listed in this location.
- ◆ **Service Messages:** This network service enables you to receive a variety of text messages such as broadcast messages about weather forecast or road conditions. At the present time, few networks provide this service. Please consult your network operator.
- ◆ **Message Settings:** This function enables default settings.

### 1.3 Calendar

This feature provides a monthly-view calendar to keep track of important appointments and daily events.

### 1.4 Call Center

The call center keeps record of missed calls, dialed calls and received calls.

- ◆ **Call Settings:** You can set call waiting, call divert, call barring, line switching. **Advanced Settings:** auto redial, call time reminder, answer mode.

### 1.5 Calculator

To use the calculator: Press the up, down, left, right and middle key to select  $+$ ,  $-$ ,  $\times$ ,  $\div$ ,  $=$  respectively.

## 1.6 Phonebook

The phonebook feature allows you to store, browse, edit, and delete phone numbers and can save up to 100 telephone numbers. The number of telephone numbers that an SIM card can store depends on the storage capacity of the SIM card.

## 1.7 Settings

- ◆ **Profiles:** The mobile phone provides multiple user profiles that may be customized to specific events and environments. Customize the user profiles according to your preference and then activate the user profiles. The user profiles fall into four selections: **General, Silent, Meeting and Outdoor.** When you insert an earpiece to the mobile phone, the mobile phone automatically enters the Headset mode. There is no option for activating the Headset mode on the screen. If you set Call Settings » Advanced Settings » Answer Mode to Any Key: all incoming calls will be automatically answered with any key.
- ◆ **Dual SIM Settings:** Dual-SIM settings.
- ◆ **Phone Settings:** This function allows adjustment in time, date, language, shortcuts, and other changes. *Note:* When flight mode is engaged, it will suspend signal-transmitting functions – thereby disabling the device's capacity to place or receive calls or text messages. Other functions that do not require signal transmission (e.g., games, built-in camera, and MP3 player) are still available.
- ◆ **Network Settings:** Access this interface to set SIM 1 and GPRS parameters.
- ◆ **Security Settings:** The security settings ensure the device is protected from unauthorized use.
- ◆ **Connectivity**
  - ◆ **Bluetooth:** Bluetooth allows you can make a wireless connection to other compatible devices such as mobile phones, computers, headsets and car kits or send images, video clips, and sound.
  - ◆ **Restore Factory Settings:** Use this function to restore factory settings. The pre-set password is 1122.

## 1.8 Audio Player

Use this feature to play audio files and control the audio player by pressing the direction keys: Play/Pause (Selection key), Previous Song/Next Song (Left and Right Direction key), Fast Forward (Long Press Right Direction key) and Rewind (Long Press Left Direction key). In audio player interface, you can press I/- or O/+ key to tune volume.

## 1.9 Mobile TV

This function allows you to watch mobile TV programs and add programs to the channel list.

*Note:* Before watching, please search available channels in your area.

## 1.10 Camera

The phone provides a camera feature to capture pictures. In the camera interface, you may press the Selection key to take a picture and may press up or down Direction key to zoom in and zoom out. Press menu for camera options.

## 1.11 Extras

- ◆ **File Manager:** You may use the file manager to conveniently manage various directories and files on the phone and the SD card and allows you to format data in the memory.
- ◆ **Games:** A game named F1 race is embedded in the phone. For specific operation, please refer to 'help' option of the game.
- ◆ **Alarm:** Five alarm clocks are set but deactivated by default. You can activate one, multiple or all of them as needed. For each alarm clock, the ringing time can be set.

## 1.12 Multimedia

- ◆ **Image Viewer:** Use this feature to view pictures or images.
- ◆ **Video Recorder:** This function enables you to record dynamic pictures.
- ◆ **Video Player:** Use this feature to play video files. Through pressing the direction key you can control the playing process of video player: Play/Pause (Selection key), Fast Forward (Right Direction key) and Rewind (Left Direction key). You may press the Up or Down Direction key to adjust the volume and press \* key to switch to full screen play.
- ◆ **Sound Recorder:** The phone supports .WAV and .AMR file extensions.
- ◆ **FM Radio:** You can use the phone as a traditional FM radio. In the radio interface, you may press left or right direction key to search channels manually, press selection key to start/pause, or press I/- or O/+ key to tune volume.

## 1.13 BLU Club

- ◆ **Blu Club:** This function enables you to view the internet and set the default features about the network. You can log on Facebook, Skype, MSN, Yahoo, Twitter and Games etc. through a web page.
